

FY2019 Resubmission - Performance Measurement Module (Sys PM)

Summary Report for SC-500 - Charleston/Low Country CoC

For each measure enter results in each table from the System Performance Measures report generated out of your CoCs HMIS System. There are seven performance measures. Each measure may have one or more “metrics” used to measure the system performance. Click through each tab above to enter FY2017 data for each measure and associated metrics.

RESUBMITTING FY2019 DATA: If you provided revised FY2019 data, the original FY2019 submissions will be displayed for reference on each of the following screens, but will not be retained for analysis or review by HUD.

ERRORS AND WARNINGS: If data are uploaded that creates selected fatal errors, the HDX will prevent the CoC from submitting the System Performance Measures report. The CoC will need to review and correct the original HMIS data and generate a new HMIS report for submission.

Some validation checks will result in warnings that require explanation, but will not prevent submission. Users should enter a note of explanation for each validation warning received. To enter a note of explanation, move the cursor over the data entry field and click on the note box. Enter a note of explanation and “save” before closing.

Measure 1: Length of Time Persons Remain Homeless

This measures the number of clients active in the report date range across ES, SH (Metric 1.1) and then ES, SH and TH (Metric 1.2) along with their average and median length of time homeless. This includes time homeless during the report date range as well as prior to the report start date, going back no further than October, 1, 2012.

Metric 1.1: Change in the average and median length of time persons are homeless in ES and SH projects.

Metric 1.2: Change in the average and median length of time persons are homeless in ES, SH, and TH projects.

a. This measure is of the client’s entry, exit, and bed night dates strictly as entered in the HMIS system.

1.2 Persons in ES, SH, and TH	1308	1262	1253	72	70	79	9	48	49	55	6

b. This measure is based on data element 3.17.

This measure includes data from each client's Living Situation (Data Standards element 3.917) response as well as time spent in permanent housing projects between Project Start and Housing Move-In. This information is added to the client's entry date, effectively extending the client's entry date backward in time. This "adjusted entry date" is then used in the calculations just as if it were the client's actual entry date.

The construction of this measure changed, per HUD's specifications, between FY 2016 and FY 2017. HUD is aware that this may impact the change between these two years.

Measure 2: The Extent to which Persons who Exit Homelessness to Permanent Housing Destinations Return to Homelessness

This measures clients who exited SO, ES, TH, SH or PH to a permanent housing destination in the date range two years prior to the report date range. Of those clients, the measure reports on how many of them returned to homelessness as indicated in the HMIS for up to two years after their initial exit.

After entering data, please review and confirm your entries and totals. Some HMIS reports may not list the project types in exactly the same order as they are displayed below.

	Total # of Persons who Exited to a Permanent Housing Destination (2 Years Prior)		Returns to Homelessness in Less than 6 Months			Returns to Homelessness from 6 to 12 Months			Returns to Homelessness from 13 to 24 Months			Number of Returns in 2 Years

FY2019 Resubmission - SysPM Data Quality

SC-500 - Charleston/Low Country CoC

This is a new tab for FY 2016 submissions only. Submission must be performed manually (data cannot be uploaded). Data coverage and quality will allow HUD to better interpret your Sys PM submissions.

Your bed coverage data has been imported from the HIC module. The remainder of the data quality points should be pulled from data quality reports made available by your vendor according to the specifications provided in the HMIS Standard Reporting Terminology Glossary. You may need to run multiple reports in order to get data for each combination of year and project type.

You may enter a note about any field if you wish to provide an explanation about your data quality results. This is not required.
