Longitudinal System Analysis (LSA) Review

Submission Comparison

FY 21 (10/1/2020 – 9/30/2021)

- Unaddressed Errors – 8
- Note Sufficient – Data accurately reflects the community Warnings – 18
- Note Sufficient – Issue unaddressed Warnings – 5

FY 22 (10/1/2021 – 9/30/2022)

- Unaddressed Errors – 0
- Note Sufficient – Data accurately reflects the community Warnings – 9
- Note Sufficient – Issue unaddressed Warnings – 5

What does the LSA Look At?

- Federal Fiscal Year HMIS Data – October 1, 20XX – September 30, 20XX
- Client data, including enrollments and assessments for active clients
- Does not include services data or case notes
- Continuum Projects (Emergency Shelter, Transitional Housing, Permanent Housing (Rapid Re-Housing, Permanent Supportive Housing, Other Permanent Housing (with and without services)
- Project Descriptor Data Elements
- Housing Inventory Chart (HDX Submission) Comparisons, including subpopulations for dedicated beds.
- Performance, including housing move in dates.

FY '22 Warnings

- Bed comparisons differences between what is recorded in HMIS and what was reported on the 2022 Housing Inventory Count (HIC).
- Utilization differences between FY '21 and FY '22 for Rapid Re-housing.
- Projects reported as open on the 2022 HIC but were not active during the fiscal year.
- Fluctuations in bed inventory were not adequately recorded for emergency shelter projects, resulting in utilization warnings.
- Overlapping/ Duplicate Enrollments present in ES/ TH projects.
- Housing Move In Dates missing results in utilization warning for RRH projects.

How can the CoC improve the LSA

- Utilize 0266 Household and Client Location and LSA & SPM Data Cleanup reports to manage Data Quality.
- Ensure Project Descriptor Data Elements (PDDE) are accurate in HMIS.
- Ensure that inactive projects are closed in HMIS and records are closed out.
- Ensure HIC data is recorded correctly in both HMIS and HDX.
- Utilize HUD's EVA tool to identify additional data quality issues (waiting on vendor to release export required for use of the new tool).

How can agencies improve the LSA

- Utilize 0266 Household and Client Location and LSA & SPM Data Cleanup reports to manage Data Quality (located in BusinessObjects).
- Ensure projects are reported to the CoC's system admin in a timely manner when they are closed and that all clients are exited from the project.
- Ensure projects are reported to the CoC's system admin in a timely manner when new projects need to be created.
- Ensure all clients served have an accurate project entry created, all assessment information is completed, and if applicable clients are exited from the project with accurate exit destination information.
- Ensure Housing Move-in Date accuracy.
- Attend HMIS refresher trainings when offered or request trainings when needed.
- Use Modeling to plan future programmatic changes to increase exits to permanent housing.
- Report HMIS issues to the HMIS Help Desk in a timely manner at hmis@one80place.org.

Stella Performance Overview

System Performance Overview

Total number of households and people served in the homeless system and performance overview for 10/01/2021 - 09/30/2022 for Lowcountry v2

 **776**
HOUSEHOLDS

 **1,114**
PEOPLE

Stella Performance Overview

System Performance by Household Type

Households with Days Homeless and Days Homeless by Household Type

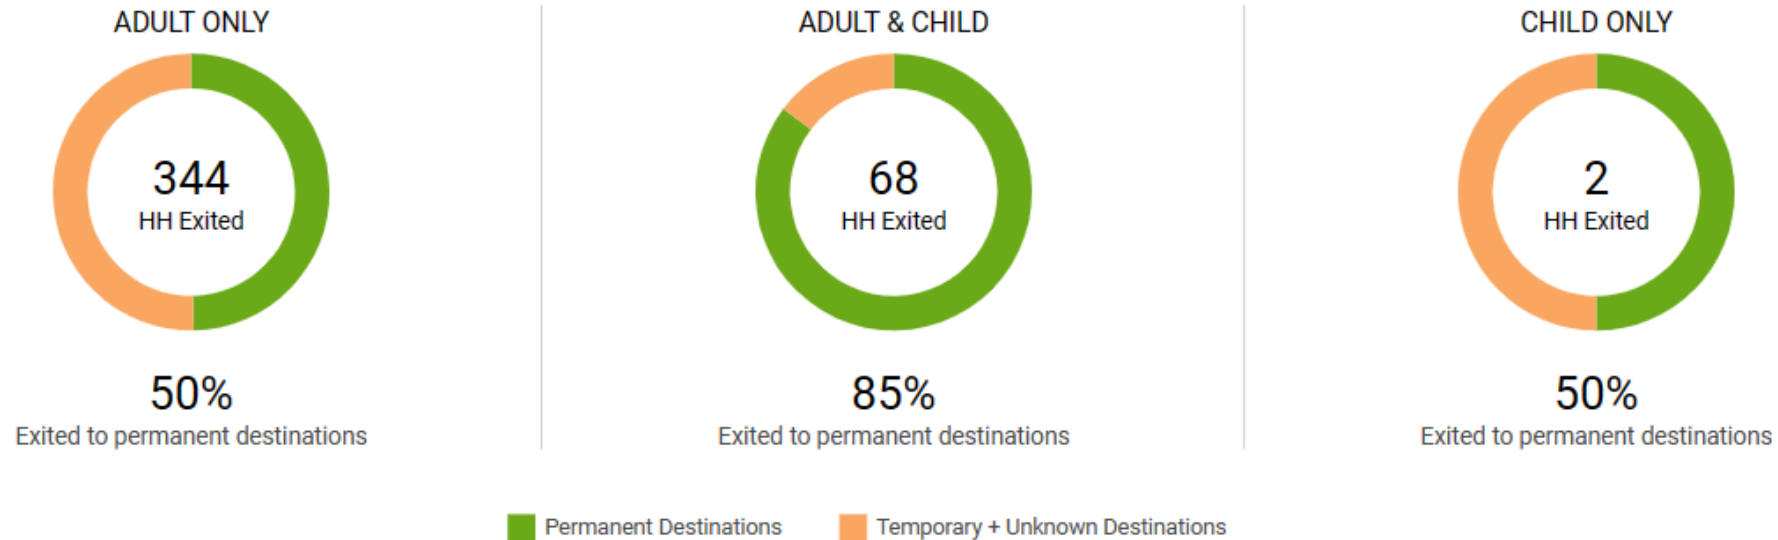

Households that had at least one day in ES, SH, TH, or RRH; or at least one day in PSH prior to move-in and the average cumulative, unduplicated number of days that households were served in ES, SH, or TH projects; and days in RRH or PSH prior to move-in.

Stella Performance Overview

Exits by Household Type

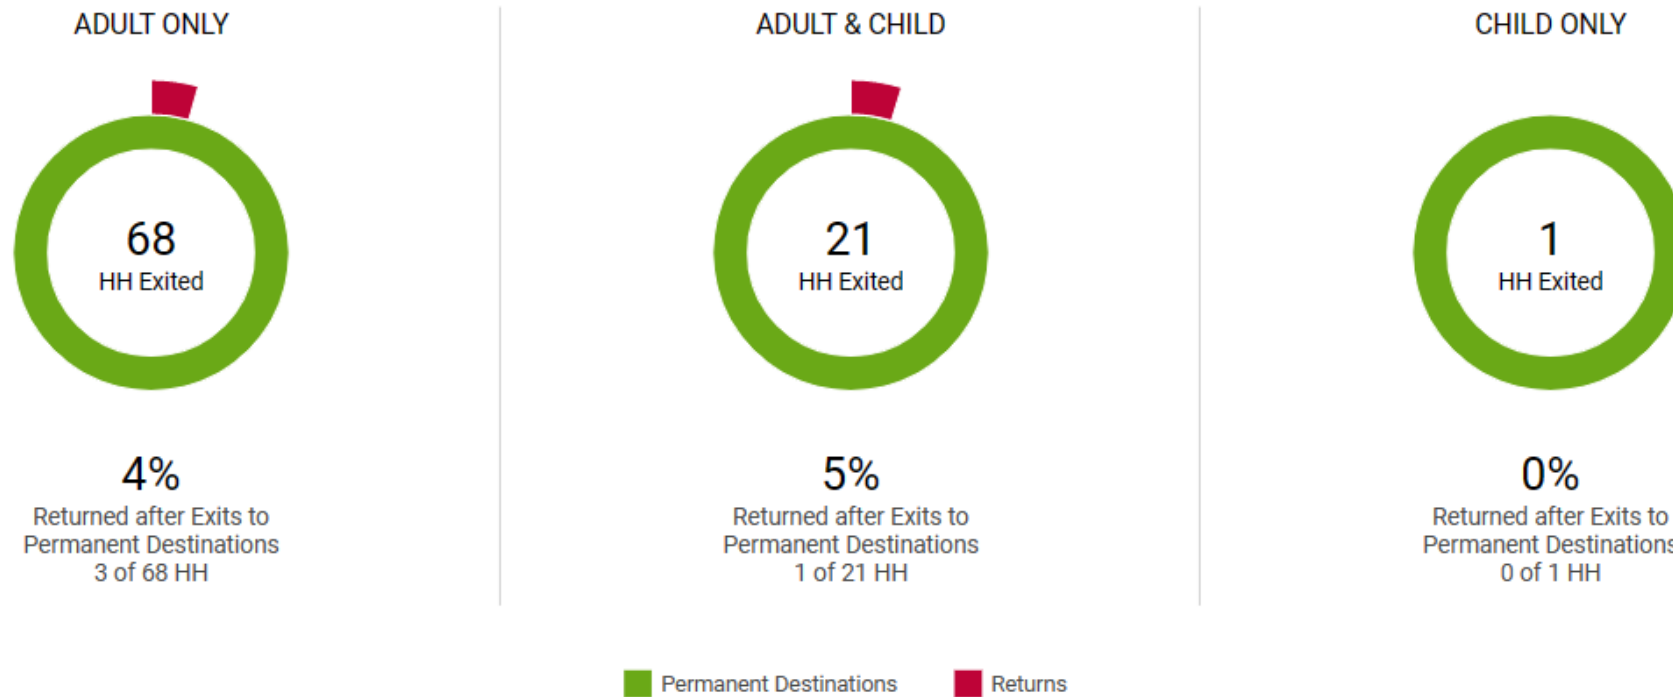

Percent of households that exited to permanent destinations.

Stella Performance Overview

Returns by Household Type

Percent of households that returned to the homeless system within six months of exiting to permanent destinations. The universe for the chart is households that exited within the first six months of the report period.

Insights

- Exit Pathway Impact- Exit destinations to unknown and temporary destinations for all households.
- Days Homeless Pathway Impact – Review impact scores and work to reduce days homeless by pathways.
- Returns Pathway Impact – Identify projects with specific populations returning to homelessness and reduce those returns. Note project models affecting returns, etc.
